LEGAL NOTICE

PUBLIC AUCTION SALE OF
VALUABLE REAL ESTATE
Saturday, March 6, 1965 at 10:00 a.m.
Pursuant to authority vested in me as Trustee in a certain Deed of Trust dated the 11th day of September, 1964 and recorded in the Clerk's Office of the Circuit Court of Appomattox County, Virginia, in Deed Book 82 at page 94, executed by Allie Wells, widow, e-mventor to me as Trustee certain real estate and wherein the Bank of Phenix was secured the payment of a certain debt and default having been made in same and having been requested to do so by the aforesaid bank, I, the undersigned Trustee, will offer for sale a public auction on the premises on Saturday, March 6, 1965 at 10:00 a.m. the following described real estate:
That certain parcel of real estate known as the Charlie Love Home Tract in Southside District of Appomattox County, Va. about one and one-half miles west of the Town of Appomattox, adjoining the lands of Ella Dews, the D. S. Godsey Estate and the Hamlet Estate and containing two acres and more particularly described by a plat of survey made by W. A. Moore dated January 22, 1951, and by deed dated the 17th day of October, 1951, which conveyed said real estate unto Allie Wells which deed is recorded in Deed Book 75 at page 165 in the Clerk's Office of the Circuit Court of Appomattox County, Virginia, and by the deed of trust heretofore referred to. Both the deeds and plat describe the real estate by metes and bounds and reference to same is hereby made for a better description of the said real estate.
This real estate is well located on a hard surfaced road, fine dwelling house, in good condition and with modern conveniences. Can be seen at any time.
TERMS OF SALE: CASH
DATE: MARCH 6, 1965
TIME: 10:00 a.m.

A Friendly NOTE

By: Paul Thompson

It seems that the world is up to its ears in statistics these days. We read just the other day, for example, that the Census Bureau reported that up to the age of 25 men outnumber women 103.6 to 100.

This is perhaps of no great interest unless you are female and marriage-minded. Women so inclined, however find the pickings a bit leaner after 25, as from this age on, females outnumber males by 3.2 million.

For all ages, the ratio in 1959 was 98 males to 100 females.

The ratio in our place seems to hold to about 50-50. Which proves you can't keep either men or women from enjoying excellent food, professionally prepared and graciously served. For the finest in Sea Food, Prime Steaks and Roast Beef & Pork make your regular eating-out place PARKWAY RESTAURANT on Route 24. Call 352-7443 to be sure.

Flower Arrangements 100 Years Ago

Mrs. Helen B. Shouse, above, displays some of the Victorian style flower arrangements made by Appomattox Garden Club members at their meeting recently. Said Mrs. Shouse, "arrangements 100 years ago were masses of flowers — globular or circular in design." She said that most containers of the period were very ornate, and she brought with her a number of vases typical of the period. More than a dozen colorful arrangements graced the county library before the workshop was completed. The Garden Club suggests that flower lovers throughout the area make period flower arrangements during this Centennial year.

Flower Arrangements Of 1865

Mrs. Helen B. Shouse, the instructor, speaking to the Appomattox Garden Club, described arrangements of 100 years ago as "mostly flowers" with ornate vases and d accessories giving rooms of that time "an overly decorate" effect.

Members of the Garden Club completed their own arrangements from artifical flowers and fresh green material brought to the meeting Monday evening at the county library.

Plant materials of the period include amaryllis, a n e m o n e, bleeding heart, lubecon, tulip, verbena, geranium, gardenia and others. Blown and pressed glass, lustre ware gilded vases, plus velvet, caquerrectypes, decorated boxes and other items for arrangements can provide flower lovers throughout the area with Victorian period arrangements, said Mrs. Shouse.

Flower arrangements themselves, were "low and wide" in relation to the container and were globular or circular in form, said the speaker.

Signup Near For '65 Feed Grain Program

Farmers will have an opportunity to sign up in the 1965 feed grain program early in February, according to J. A. Martin, Chairman, Agricultural Stabilization and Conservation County Committee. The signup period will be for 2 weeks, from February 8 through March 26.

As in previous years, the feed grain program will be voluntary and each individual producer on farms growing one of the three feed grains covered by the program will make his own decision about whether to take part. The program is available for corn, grain sorghum, and barley.

To take part in the feed grain program, the farmer will agree to take out of production and devote to an approved conservation use at least 20 percent of the total feed grain base for all of the three grains grown on the farm. The farmer may divert the acreage of one or more of the feed grains, but his payment will be figured according to the rate applicable to the crop diverted.

Farmers who participate in the program will be eligible for diversion and price - support payments, and for price-support loans on their 1965 production of the three grains. The price-support payments will be made to participants whether the feed grain produced in 1965 is fed on the farm, sold, or placed under a price - support loan.

Chairman Martin points out that the price support payment rate per acre for participating farms will be substantially higher than last year.

Farmers are encouraged to look into the advantages of taking part in the 1965 feed grain program. Mr. Martin says the local ASCS office will gladly show any farmer how the 1965 program can fit into his farm operation.

595 Dogs Given Anti-Rabies Shot

On Wed. evening, Jan. 27, 226 dogs were vaccinated in Appomattox, bringing the total to 595 dogs treated in the county during three rabies-prevention clinics held here and in Pamplin in January. That's an increase of 161 dogs over the January 1964 total of 434.

The clinics are sponsored by the Appomattox County Health Department.

"The South 40"
by JAMES A. SMITH
COUNTY AGENT

Control recommendations for alfalfa weevil have just been released. For spring treatments use Malathion at the rate of 1.25 lbs. equivalent to 2 pints of emulsion per acre; Diazinon—rate 1 to 1.5 lbs. equivalent to 2 to 3 pints of emulsion per acre; Parathion, rate 4 oz. equivalent to 1 pint of emulsion per acre. NOTE: Parathion is extremely poisonous and should be applied by a trained operator. New for 1965 is stubble treatment which is to be applied after the first harvest. Use Malathion, Diazinon or Parathion at same rate as above. And in addition to these 3, Guthion at the rate of 8 oz. equivalent to 2 pints of emulsion per acre may be used. Do not apply more than one treatment of Guthion per cutting. If Guthion is used, allow 21 days between spraying and cutting or grazing. If Parathion is used, allow 15 days between spraying and cutting or grazing. Insecticides are poisonous. They should be used with caution.

* * *

Farmers are going to be using more and more Insecticides. This calls for a better management Job. Strict adherance to the label is important for your safety. The label is the most expensive thing you read for its size. You will find the following on the tag: Brand name, use, per cent active ingredients, per cent inert, directions, pests controlled, dosage, time, method, crops, animals, site treated, warnings to consumer of treated foods, net contents, name of manufacturer or registrant and USDA registration number. All of this is there for one purpose—to protect you and the consumer and help you get effective control of the insect.

* * *

The past two dray years has eliminated much of the ladino clover from pastures. Ladino will improve both yield and quality by reseedinc. Research at the Middleburg Station points out that 150-200 pounds of nitrogen per acre were needed to maintain the yield and quality of forage from an orchard grass pasture equal to that from a good ladino clover-orchard grass pasture that did not receive nitrogen. Clover can be re-established by following 5 simple steps:

1. Be sure pH is 6.0 to 6.5.
2. If phosphate and potash level is medium, apply 50 lbs. of each per acre.
3. Seed 2-3 lbs. ladino clover per acre. If more grazing is needed, seed 3-5 lbs. of red clover or 5-10 lbs. of lespedeza per acre in addition to the ladino.
5. If soil is soft set drill to apply fertilizer and seed not more than one-fourth inch deep.

If soil is hard disc lightly—seed and cultipack.

5. Seed as soon in February as weather permits.

* * *

Many farmers are trying to get information ready for filing income tax reports. There is one possible tax saving that many farmers are not using. That is investment credit. To qualify for investment credit the property must be (1) depreciable tangible personal property; (2) have been acquired after December 21, 1961; (3) have a useful life of at least four years. If the qualifying property has a useful life of eight years, a direct tax of 7 percent can be had. Between 4 and 8 years it is proportionately less. Prior to 1964 the Investment tax credit reduced the "cost basis" for depreciation. This is no longer true on depreciable property bought after December 1, 1963. If the depreciation balance was reduced because of Investment Credit, it can now be restored. The farmers tax guide shows how this may be done.

* * *

Records for tax and management purposes are vital to all farmers. The Internal Revenue Service says, "Each taxpayer MUST keep records to accurately prepare an income tax return, and insure that he pays only his proper tax." The law requires every taxpaer to maintain records which will enable him to prepare other complete and accurate tax returns. Memoranda or sketchy records which merely approximate income, deductions, or other pertinent Items affecting your tax liability will not be considered adequate for compliance with the law.

Farm record books and inventory Record Books are available from this office. More farmers need to set up inventory records. Pick up your copy now.
